AAEM[™]
AMERICAN ACADEMY OF
EMERGENCY MEDICINE
CHAMPION OF THE EMERGENCY PHYSICIAN

ABOUT MEMC

MEMC22 embraces a true multinational collaboration of teaching and learning, based on the belief that every emergency care practitioner has knowledge and experience that will benefit all of us.

Our focus is to move away from a uni-centric practice model towards a model of best practices that embraces genuine cultural competency, diversity, and respect for the variety of resource availability that characterizes the true practice of emergency medicine on a global scale.

You may count on a diverse and stimulating curriculum which will prove to be impactful to both new and seasoned physicians, residents and medical students; as well as nurses, researchers and scientists, pharmacists, nutritionists, and anyone involved in the delivery of emergency care.

PRIMARY ORGANIZERS

AAEM

The American Academy of Emergency Medicine (AAEM) is a non-profit democratic organization of 8,000 members. The Academy supports the establishment and recognition of emergency medicine internationally as an independent specialty and is committed to its role in the advancement of emergency medicine worldwide.

AAEM has been co-sponsoring international meetings for many years promoting the specialty of emergency medicine and offering a wonderful opportunity for academic and scientific exchange. AAEM is also partnering internationally to offer academic and scientific exchange across the world. MEMC22 will be the XIth Mediterranean Emergency Medicine Congress, an international conference which is held every other year. In past years, AAEM has worked with the Sociedad Argentina de Emergencias (SAE) in offering a jointly sponsored biennial meeting of the Inter-American Emergency Medicine Congress (IAEMC) and the Korean Society of Emergency Medicine (KSEM) to hold the first Pan-Pacific Emergency Medicine Congress (PEMC) in Seoul, South Korea. Most recently, AAEM worked with the Department of Emergency Medicine at King Faisal Specialist Hospital and Research Center-Jeddah (KFSHRC-J) and Saudi Society of Emergency Medicine (SASEM) to jointly sponsor the 3rd International Red Sea Emergency Medicine Conference (RSEM20). And now, AAEM is excited to once again bring you another exceptional international congress on 21-24 September 2022!

MAEM

The Mediterranean Academy of Emergency Medicine (MAEM) was established in 2014 for the purpose of promoting, securing and protecting excellence and integrity of emergency medicine in the Mediterranean region. Its mission encompasses the practice and management of emergency medicine as well its education, training and research.

MAEM defines the Mediterranean region as any country or region contiguous with the Mediterranean basin. This includes all Europe, Turkey, Israel, and the Black, Adriatic and Aegean Seas, and the Arab North African and Middle Eastern Countries.

MAEM is currently incorporated through AAEM as an international regional chapter of AAEM. This multinational chapter has already begun its activities and establishing itself in the Mediterranean basin. This includes educational planning and executing activities such as congresses, national conferences and seminars, multinational leadership meetings. Over the next three to five years, MAEM will be incorporating itself and selecting its base and operations in countries around the "Big Blue."

Invitation to Support

Dear Colleagues,

It is with great excitement that we invite you to support and attend the XIth Mediterranean Emergency Medicine Congress (MEMC22), to be held 21-24 September 2022 in St. Julian's, Malta.

MEMC22 represents a continued collaboration between the American Academy of Emergency Medicine (AAEM) and Mediterranean Academy of Emergency Medicine (MAEM), to continue the traditions and their education and research mission. The mission of the Congress is to encourage the practice of emergency medicine throughout the world and to provide a forum for exchange of information. The final result will be better care for emergency patients worldwide.

Multiple tracks will be offered covering clinical, procedural, administrative, research and educational topics. The speakers are among the very best educators in the world, and the topics are cutting edge. Hundreds of other attendees present abstracts both in oral and poster format.

Financial support for the Congress comes primarily from registration fees and from a variety of other sources. Attendees from the United States and from countries with a reciprocity agreement with the US receive *AMA PRA Category 1 CME Credit*[™]. For this reason, ACCME guidelines for commercial support are strictly followed, and at times the educational programme remains totally independent of external influences.

MEMC22 offers you a unique opportunity to promote your products to the emergency medicine practitioners. It will also be an excellent platform for anyone interested in supporting the development of international emergency medicine.

We look forward to meeting you in Malta and deeply appreciate your consideration.
